## *Who we are*

PHCAA has been the leading Filipino-Australian not-for-profit organisation. PHCAA is independent, non-partisan, non-political and non-religious. Through its team of industry professionals, PHCAA provides free assistance to overseas nurses and other professionals on how they can best qualify to come to Australia. In collaboration with Registered Training Organisations, PHCAA continue to encourage local health care workers in maximising their potentials by assisting them in furthering their education and experience through rebate payment schemes and efficient referral system to prospective employers.

Through the auspices of PHCAA, various hospitals and clinics in the Philippines have become the recipient of medical supplies and equipment valued over A\$350,000.00. PHCAA have been quick to respond and donate monies to Mayon Volcano victims in the Bicol province. PHCAA continue to collaborate and assist other non-profit organisations in providing medical missions to remote areas in the Philippines. PHCAA has gained international recognition by working with PNA (Phil Nurses Association of America), PNA (Philippines) and PNA-UK in strengthening its affiliation with Filipino nurses around the world.

PHCAA is able to work effectively through the sponsorship of its founding members, its business networks and affiliates, and all its bona fide members.

PHCAA holds a once-a-year Annual AGM, and Charity Christmas Dinner & Dance Party at a special members rate. As Filipinos proud of its roots, we can never be thankful enough to our fatherland, which made us for what we are now. It is in this spirit that we are also calling you to join us in serving our “kababayans” whether in the Philippines or here in Australia, as a token of our love and respect to our fellow Filipinos.

PHCAA exist not to be served, but to be of service to those who are in need regardless of political, cultural, traditional and / or religious orientation. Finally, thru its regular medical missions to the Philippines, PHCAA works hand in hand with Filipino-Australian Health Care Professionals and Workers who care.

PHCAA Management Committee  
PHCAA Executive Board  
2005 / 2006 / 2007 / 2008 / 2009 / 2010/2011

### **OUR MISSION**

*“This organisation endeavours to uphold the image and promote the welfare of Australian health care workers and professionals.”*
